# **Table of Contents**

Goals and Objectives	3
Outline/Overview	5
Guide for Implementation	6
Resource List	8
Supplies & Supplemental Materials	.13

# **Goals and Objectives**

## **READING GOALS:**

- Cluster 1: Key Ideas and Details
  - LAFS.K12.R.1.2: Determine central ideas or themes of a text and analyze their development; summarize the key supporting details and ideas.
- Cluster 3: Integration of Knowledge and Ideas
  - LAFS.K12.R.3.7: Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.

## **READING OBJECTIVES:**

Students will interact with important works of literature, classics, in a new and enriching way with active experiencing. Students will be able to retain what they learn about the book which will surely benefit them in their future high school and collegiate experiences and even as a well-read adult.

# **WRITING GOALS:**

- Cluster 2: Production and Distribution of Writing
  - LAFS.K12.W.2.4: Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
  - LAFS.K12.W.2.5: Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.
  - LAFS.K12.W.2.6: Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

# **WRITING OBJECTIVES:**

- Literary Analysis: Students will deepen their understanding of the characters in the book, the setting, plot, conflicts, important symbols, and themes.
- Creative Writing: Students will use their knowledge of the book's plot, setting, characters, themes, symbols, etc. to create a script or shortened version of the book. They can put any twist on the script they want so long as they stay true to the major elements of the book. For example, student can have the characters speak with accents if they so choose. Also, they will learn about script writing and terms like stage directions, dialogues, asides, soliloquys, etc.

- Pre-Writing: In small groups, students will be given a chapter from the book for which they
  have to identify the key elements and summarize. They will use that as a roadmap to
  develop the draft of their scripts.
- Drafting: In the same small groups, students will go to their computers either at home or in the school's computer lab. They will access the googledocs file sent to them (googledocs is a collaborative tool they will learn about; it is very beneficial for uploading and sharing files). They will start to write the first draft of the script just for their chapters.
- Revising: Once all the small groups in the class have typed up their respective chapters in googledocs, the editing group will bring up the document on the SMARTBoard or projector for the entire group to see. They will then read through the script and revise to make sure all the chapters are cohesive, consistent, and fluid in terms of the overall tone, character and plot development, themes, and symbols. \*While the Editors are working on the script, the Design group or Designers are creating the set and costumes.
- Publishing: As a whole class, students will read the script on the SMARTBoard or projector.
   We will conduct a read-through of the entire script. We will assign parts or students can audition for parts. We will then print the scripts and students will go forth and study their lines and/or make cue cards for filming.

# **SPEAKING AND LISTENING GOALS:**

- Cluster 2: Presentation of Knowledge and Ideas
  - LAFS.K12.SL.2.5: Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.
  - o LAFS.K12.SL.2.6: Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

# SPEAKING AND LISTENING OBJECTIVES:

- Listening and Speaking: Students will be filmed acting out the script they wrote that is based on the book they read. Students will understand the roles of actors, producers, and directors. They will take on these roles and make their movie.
- Technology: Students will be taught the basics of Windows Movie Maker. They will work to edit the film. They will add music, sound effects, and text where necessary on the final movie. This will be done on the SMARTBoard or project for the whole class to have input in the movie they create.

\*There will be a small group designing the DVD cover while the majority of students are working on the edits.

Purpose
Students read works of literature throughout the school year, but once the year comes to a close, they forget these important, classic, essential pieces; therefore, this project was designed to help imprint these wonderful works of literature in the minds and hearts of students.

Summary
Students read works of literature throughout the school year, but once the year comes to a close, they forget important, classic, essential pieces like The Catcher in the Rye, A Midsummer Night's Dream, Macbeth, and Moby Dick. Students will see or hear references to these important works of literature not only as they progress through high school, and take high stakes AP exams, but also in college when they will be expected to have some background about these texts. This project was designed with that in mind; it will imprint these wonderful works of literature in the minds and hearts of students. This is done when students write their own script based on the book and then act it out. When students act, they are energetically involved; they are able to focus not just on the words in the script, but the meanings of these words; they are able to "get inside a character... and feel their character's intention[s]..."
(Noice, 2006). This type of interaction with the text called active experiencing by researchers. It is a sure way for students gain a higher retention rate for the books they read because they are putting to use "all physical, mental, and emotional channels to communicate the meaning of material..." (Noice, 2006). This is why this type of project is beneficial for all students on any reading level or in any grade level. They will participate in the following steps of this project after they read a book in class: collaboratively, students will write and edit a script for the book, create a set, design costumes, act, film, and edit their movie. This movie will be showcased to select teachers and staff for a vote (most creative, truest to the text). Finally, the winning class will earn a Pizza and Popcorn Party an

- Guide for Implementation

  Procedures of Classroom Activities

   Script Writing

   After learning the basics of script writing (in terms of formatting dialogue, stage directions, narration, etc.), students will use their knowledge of the book's important elements to write a script based on the book. They will do this in small groups; each small group will be given one chapter for which they have to identify the salient elements. This will be the planning for their script.

   Next, students will learn about the googledocs tool. They will be introduced to this beneficial tool on the SMARTBoard or projector. They will experience a step-by-step tutorial on how to set up an account through google.com, access the link to the googledocs file in their email, and maneuver through the document once the file is opened. After the tutorial, students will be taken to the school's computer lab (or they can use their home computers) to access the googledocs file for their script writing. They will follow the format taught previously about script writing so the entire document will be consistent in format. Each small group will type their scripts this simultaneously so that by the end of class a script for all the chapters in the entire book will be typed into the googledocs file. For example, if there are 10 chapters and 10 small groups, each group will use 10 computers to type their scripts together. After an hour of class, the googledocs file will contain the script for the entire book with all 10 chapters. This singular googledocs file will contain the script for the entire book with all 10 chapters. This singular googledocs file will contain the script for the entire book with all 10 chapters. This singular googledocs file will be viewed and edited.

   Editors and Designers

   The class will be divided into two main large groups: Editors and Designers. The Editors will bring up the script on googledocs file will contain the script for the entire book with all 10 chapters. This singular googledocs file will be read through t

# Short Film Rubric - TGV3M

Name:		

Criteria	Level 4 8-10	Level 3 7	Level 2 6	Level 1 5
Pre-Production				
Treatment	The content holides a clear concept and story. Treatment is very well written and follows the prescribed format	Content exhibits connections around the concept and story, but small diversions are present Treatments well written and follows the prescribed format	The content leaves the leader with a wag te impression of the concept and storyline. Treatnent is somewhat we ill written, to llow highting prescribed to mat.	The contentiacks a central conceptand storyline. The atmentis noticely well written and raggiety to llows the prescribed format
Storyboard	Storyboard clearly corresponds with treatment and communicates all of the linto matternie each scene.	Stowboard corresponds with treatmentand communicates most of the information needed for each scene	Storyboard wag rely come spool as with treatment and communicates some of the information needed for each scene.	Storyboard vaguely corresponds with treatmentand missing information for each scene.
Production				
Video Clarity & Lighting	All shots are clearly to cised. Came ra movements are smooth and of appropriate speed. All shothave appropriate lighting.	Mosts hots are clearly focused. Camera movements are smooth and/or of appropriate speed. Mosts hots have appropriate lighting.	Many are clearly focused. Motion shots are fairly steady. Some shots have inadequate light.	Few shorts are clearly focused. The came is not held steady. Many shorts have hadequate light
Video Framing	Video shows evidence of good composition. A variety of short types are used in an appropriate manner.	Mosts hots are well framed. A vare ty of short types are used.	Few shots are well framed. Two – three shot types are used.	Many shots are poorly framed. Only one or two shot types are used
Continuity	No lapses in continuity are present or are insignificant.	Small lapses is continuity are present	Many lapses in continuity are present	Video t disjointed in significantiespects.
Post-Production				
Transitions	Video moves smootbily from one shortboar offier using an appropriate selection of transitions.	Transitions move relatively smoothly form shotto shot and a variety are used.	Transitions from shorto shortage choppy and the types of cuts and tades are not atways appropriate.	Tape is need ted. No transitions between clips Raw clips runback to back in final video.
Audio	And look balanced between dialogue, music and voice over. And look bear throughout the video.	And lo is usually balanced between diabgre, music and voice over. And lo is charthroughout the video.	Audio is somewhat balanced between dialogue, musband voice over. Audio is clear throughout the video.	And to be unbalanced between dialogue, music and voice over. And to be transfible in significant portions of the wideo.
Pace	All clips are justion g enough to make the point clear with no slack time. The pace captures the andlence attention.	Mostolips move ata steady pace. Mostolips are edited to remove stack time.	Some clips move at a steady pace. Some clips are edited to emove stack time.	Video clips are too bing and do not advance the storyline or too short and leave on tessential action.
Appropriateness & Originality	Contentmeets all appropriateness requirements. Video is very original and creative.	Content meets most appropriateness requirements. Video shows many original and creative etiments.	Content meets some appropriateness requirements. Video is somew hat original and creature.	Contents not appropriate for classroom viewing. Video tacks originality and creativity.
Required Components: - Leigti (7-10m li) -Title & Credits - Societtack - 2 Techniques	Film includes all of the required components	Film includes most of the required components	Film includes some of the required components	Film includes few of the required components

# Collaborative Work Skills Rubric

	4	3	2	1
Contributions	In large- and small- group discussions, shares helpful ideas. Leads the discussion and makes a strong effort to contribute.	In large- and small- group discussions, often shares helpful ideas. Clearly strives to participate.	In large- and small- group discussions, sometimes shares helpful ideas. Makes the required effort to participate but no more.	In large- and small- group discussions, rarely shares helpful ideas. Participates minimally or not at all.
Time management	Completes assignments on time throughout the project. Does not cause the group to change deadlines or reassign work because of lateness.	Usually completes assignments on time throughout the project. Does not cause the group to change deadlines or reassign work because of lateness.	May put things off, but turns assignments in on time. Does not cause the group to change deadlines or reassign work because of lateness.	Routinely misses deadlines, puts off work, and causes group to change deadlines or reassign work because of lateness.
Problem solving	Makes a clear effort to find and share answers to problems.	Does not actively seek answers to problems but helps to improve those found by others.	Accepts solutions found by others without changing them. Is willing to try suggested answers to problems.	Makes no effort to find, share, or try answers to problems. Leaves all work to others.
Working with others	Listens well and assists others in their efforts, Facilitates group work,	Usually listens well and assists others in their efforts. Does not facilitate group work, but doesn't hinder it either.	Sometimes listens well and assists others in their efforts but may be difficult to work with.	Does not listen well or assist others; may not participate in group work.
Research techniques	Always looks at varied sources and records information in detail.	Usually studies varied sources and records information in some detail.	Often studies varied sources and records information, but sometimes it is sketchy.	Rarely looks at more than one source and barely takes any notes.
Synthesis	Arranges information found by self and others into useful formulations; is able to manage complex ideas.	Usually arranges information found by self and others into useful formulations; may need help in managing complex ideas.	Sometimes arranges information found by self and others into useful formulations.  Does not manage complex ideas.	Rarely or never arranges information into useful formulations or manages complex ideas.

# Supplies & Supplemental Materials

- <u>Set-Up:</u> During the writing process, students can use the computers in the media center to access googledocs. They can even use their SMART phones and devices. While in the filming stage of the project, students should have access to various areas around campus, and they can film at home or in their local parks and community locations. At the Viewing Day, access to a computer with DVD capabilities, projector, and speakers are needed to watch the films; can be done in the Media Center or Auditorium.
- Materials: Computer with access to iMovie or Windows MovieMaker; projector; speakers
  digital camera or camera phone; camera tripod; memory card or flash drive; costumes and
  props (hats, wigs, various clothing, etc.); arts and craft (paint, paper, brushes, glue guns,
  tape, etc.); food (pizza, popcorn, drinks, cake, paper products, etc.); awards (certificates,
  trophies).
- <u>Fieldtrip:</u> On the Viewing Day, an in-door fieldtrip can be held to make sure all students from all class periods can participate.
- <u>Use of School Facilities:</u> The school's Media Center and Auditorium can be used for the Viewing Day. Local malls, parks, community centers can be used as settings for the film as well as the school's campus.
- <u>Adaptation</u>: This project can be adapted for any grade level in the content area of Literature or even History. An elementary class could make films related to the folklore they read. A history class could make a film about significant historical events or persons in history, as well.
- <u>Estimated Cost:</u> This cost for the supplies ranges from \$200 \$400 for the purchase of books, technological tools, and supplies for video-taping and showcase.
- Suggested Items for Purchase:
  - Digital Camera
  - Camera Tripod

# APPLY FOR AN IMPACT II ADAPTER GRANT!

M-DCPS teachers, media specialists, counselors or assistant principals may request funds to implement an IMPACT II idea, teaching strategy or project from the Idea EXPO workshops and/or curriculum ideas profiled annually in the *Ideas with IMPACT* catalogs from 1990 to the current year, 2014-15. Most catalogs can be viewed at The Education Fund web site at www.educationfund.org under the heading, "Publications."

- Open to all K-12 M-DCPS teachers, counselors, media specialists
- Quick and easy reporting requirements
- Grants range from \$150 \$400
- Grant recipients recognized at an Awards Reception

To apply, you must contact the teacher who developed the idea before submitting your application. Contact can be made by attending a workshop given by the disseminator, communicating via email or telephone, by visiting the disseminator in their classroom, or by having the disseminator visit your classroom.

Project funds are to be spent within the current school year or an extension may be requested. An expense report with receipts is required by June 15th.

# APPLICATION DEADLINE: December 10, 2014

Apply online at www.educationfund.org

For more information, contact:

Edwina Lau, Program Director 305.558.4544, ext. 113 elau@educationfund.org
